Chinese Language Course for Children, 4-12 years

At EUCSyd, Sønderborg

IBACI's Teaching Spot

Target Group

The course is designed for children between the ages of 4 and 12.

Course Literature

The course is based on topics in the textbook “Chinese Paradise (1-3)” and other chosen storybooks for children.

Course Description

The course is designed for children between the ages of 4 and 12. The teaching of Mandarin Chinese begins with playful tools and games. The pupils engage in game-like activities and within a short time become familiar with the Chinese language. Without even realising, they are learning a second language; the children follow storybook adventures such as the “Chinese Paradise (1-3)”. Spoken Chinese and Pinyin are practised and enhanced through songs, stories and nursery rhymes, and modelled and explored as the children take part in various role-plays.

Aim of the Course

The aim of this class is to expose children to Chinese as second language and help them learn about Chinese culture. Hearing a story, listening to music, or learning a few words in Chinese will give the children the skills for appreciating it now and learning to speak it later. Learning Chinese as second language is not only a linguistic activity but also a cognitive one, which involves memorising rules and vocabulary, which helps strengthen their mental muscle. When children join the preschool Chinese class, they are exposed to Chinese and English too.
