International experience

VET International

by EUC Syd

EUC SYD

The Erasmus+ mobility programme aims to promote learning, development, and international cooperation through stays abroad for students, apprentices, educators, and staff within the education sector. The key objectives are:

- 1. Enhance professional and personal competences** – Participants gain new knowledge, practical skills, and intercultural experience.
- 2. Improve employability** – Mobility increases participants' attractiveness in both national and international job markets.
- 3. Promote intercultural understanding and tolerance** – Exposure to other

cultures strengthens participants' social and cultural competencies.

- 4. Strengthen cooperation between educational institutions** – Schools and organisations exchange experiences, develop joint projects, and build international networks.
- 5. Support EU priorities** – Such as green transition, digitalisation, inclusion, and active citizenship.

Erasmus+ is both an educational and cultural program that empowers individuals and contributes to the overall development of the education system.

Welcome to EUC Syd

Education is a cornerstone of any modern and innovative society. Denmark's long-term investment in education and research has yielded strong results. Today, Denmark is a modern knowledge and production-based society, with a strong focus on continuous development, sustainability, and welfare.

Vocational education and lifelong learning play a vital role in Danish society. Developed in close cooperation with industry and academia, our vocational programmes combine advanced theoretical insight with hands-on practical skills and competences.

Our core values inspire students to:

- Be independent and self-governed
- Deliver work of the highest quality
- Harness the power of cooperation
- Approach challenges with creativity and an open mind
- Promote environmental sustainability
- Become skilled leaders in specialised professions.

EUC Syd is dedicated to sustainability, an ambition that is evident in our day-to-day operations as well as in the structure and delivery of our teaching.

Why choose EUC Syd?

With five campuses across four cities, EUC Syd is the largest vocational school in Southern Denmark. We offer more than 25 vocational education and training (VET) programmes in areas e.g., Industry, Building and Construction, Gastronomy, and other technical craftsmanship's.

We are proud to educate skilled professionals rooted in high-quality craftsmanship, professional pride, and creativity. Staying true to

Danish values, we aim to shape not only careers but lives – offering a holistic education that embraces differentiation, teamwork, problem-solving, and project-based learning.

Committed and competent teaching professionals

Our instructors are experienced professionals with international backgrounds from studies and careers abroad. They are dedicated to ensuring excellence in education and preparing students for a globalised world.

Programmes

- EUC Syd's International VET-programs offers condensed versions of our core programmes. For a current overview, please refer to our catalogue.
- Course duration, content, and assessment are tailored in agreement with the sending partner.
- Instruction is offered in English or German. Groups may bring their own translator, or EUC Syd can arrange translation services upon request.

All-Inclusive exchange and mobility programmes

Meals and accommodation

International students and guests are accommodated alongside Danish students in EUC Syd boarding facilities or with hosting partners. Fees include full board, bed linen, towels, and Wi-Fi.

Quality assessment

All our programs adhere to the Danish national VET curriculum and are overseen by the Danish Ministry of Education. We implement the European Credit System for Vocational Education and Training (ECVET) and carry out regular evaluations with students and partners to ensure the highest quality in our teaching.

Credits and certification

Our programmes are aligned with EQF Level 3 (beginners), Level 4 (experienced) and Level 5 (advanced). Students can receive a certificate of attendance upon completion.

International partnerships

We prioritise international collaboration and maintain active partnerships with educational institutions across Europe, and overseas countries. Our exchanges are supported by the Erasmus+ programme and other educational initiatives.
